

FOR SELLING YOUR HOME

AERIAL DRONE PHOTOGRAPHY

Whether it's residential, retail, commercial, or even just land, aerial shots of a property can make a huge difference in how it's presented! As professional photographer (www.photoronin.com), I understand how important the quality of pictures and their aesthetic is.

Complying with local and federal laws is hugely important when doing aerial/drone photography, and being a current FAA-licensed Certificated Remote Pilot I'm licensed to do this work and am well-versed in the requirements and regulations.

FOR BUYERS & HOMEOWNERS

WI-FI, INTERNET, AND SMART HOMES

From slow Internet speeds and Wi-Fi dead spots to computer issues and Smart Home setup, I understand the technology that makes home life easier, and my job is to make your homeowners more comfortable and confident about what they have and what it can do for them.

SERVICES

- Fixing slow Internet/Wi-Fi and dead spots
- Smart Home devices, setup, and home security
- Computer and device issues and support
- ...and more!
